#ManureGasPlastic™ and #MGP™
and #CAR™ and #CARpool™
Patent Pending

#ManureGasPlastic™ and #MGP™

Patent Pending

Catalyst, in chemistry, any substance that increases the rate of a reaction without itself being consumed. Enzymes are naturally occurring catalysts

#ManureGasPlastic™

Function & Process

As nouns the difference between process and function is that **process** is a series of events to produce a result, especially as contrasted to product while **function** is what something does or is used for.

Manure > Catalyst>ManureGas™>Catalyst>Plastic

Plastic>Extruder>Shapes: Pellets, Bricks, Lumber, Water Tanks

Extruder>Buildings, Underground, Upon and Under Water, Floating Housing, Boats, Islands of Plastic
